- **Other Programming:** C, Python, Java

PROFESSIONAL EXPERIENCE

Software / Systems Engineer | *DigitalCom* — *Cairo, Egypt*

Aug 2025 – Present

- Develop and deploy custom software modules and user interfaces for 100+ touch-panel devices, applying UI/UX principles that reduced end-user support calls by 30%.
- Engineer integration logic for 15+ production systems, achieving 99.9% post-deployment uptime through rigorous debugging and testing.
- Build API integrations (Zoom, Cisco) using modular, reusable code patterns, cutting development time by 25%.
- Collaborate with cross-functional teams to translate client requirements into working software solutions and resolve 95% of issues remotely via diagnostic tools.
- Apply software development lifecycle (SDLC) practices including version control, code reviews, debugging, and documentation.

Front-End Developer (Diploma Program) | *Era Soft* — *Cairo, Egypt*

Jan 2025 – Apr 2025

- Built responsive single-page web applications using HTML5, CSS3, and JavaScript (ES6+), ensuring cross-browser compatibility and mobile-first design.
- Developed interactive user interfaces with React.js using component-based architecture, React Hooks, and state management to create reusable UI components.

- Engineered a full-featured CRUD application with Create, Read, Update, and Delete functionality, integrating front-end with REST APIs and structured data flows.
- Practiced modern development workflows including Git version control, branching strategies, and collaborative code management on GitHub.
- Translated project requirements into functional web applications through iterative development, testing, and debugging cycles.

SELECTED PROJECTS

Full-Stack CRUD Application — *React.js, Node.js, Express, MySQL*

- Designed and built a complete CRUD web application with React front-end and Express/Node.js back-end connected to a MySQL database.
- Implemented reusable React components, form validation, and state management for a smooth user experience.
- Applied responsive design with CSS3 and Flexbox/Grid to support desktop and mobile viewports.

Responsive Portfolio & UI Components — *HTML5, CSS3, JavaScript, React*

- Developed interactive UI components (modals, carousels, forms) using vanilla JavaScript and React Hooks.
- Optimized for accessibility, semantic HTML, and clean, maintainable CSS architecture.
